Portfolio | LeetCode | Tamil Nadu, India

Summary

Full Stack Developer skilled in **Java, Spring Boot, React, TypeScript, and SQL**, with experience building scalable, secure, and production-ready applications. Strong in **Data Structures & Algorithms, backend development, system design**, and delivering end-to-end software solutions.

Technical Skills

Languages: Java, Python, JavaScript, TypeScript

Backend: Spring Boot, Spring Security, RESTful Web Services, Spring Data JPA, Hibernate

Frontend: React.js, HTML, CSS, Tailwind CSS

Databases: MySQL, PostgreSQL

DevOps & Cloud: Docker, Docker Compose, AWS, Git, GitHub

Core CS: Data Structures & Algorithms, OOP, DBMS, System Design, Low-Level Design

Tools: Maven, Flyway, Postman, IntelliJ IDEA, Visual Studio Code

Projects

TaskFlow — SaaS Project & Team Management Platform

Tech & Tools: React, TypeScript, Tailwind CSS, Spring Boot, Spring Security, MySQL, Flyway

- Built a full-stack SaaS platform with role-based access across **11+ modules** and **40+ REST endpoints**, supporting secure multi-tenant workspaces for Project Managers and Team Members.
- Developed a drag-and-drop Kanban board with **4-stage task transitions**, reducing manual status-update overhead by an estimated **60%** over spreadsheet tracking.
- Designed dashboard analytics aggregating data across **7 relational entities**, providing visibility into sprint progress, team performance, and delayed tasks.

CareerLy — Job Application Tracking Platform

Tech & Tools: React.js, Tailwind CSS, Java, Spring Boot, MySQL, Docker, Nginx

- Built a full-stack job tracking platform with **7 REST APIs** supporting CRUD operations, search, filtering, interview, and offer tracking.
- Developed a responsive React dashboard with **5 core views**, centralized application management, and analytics for streamlined job tracking.
- Containerized the React, Spring Boot, and MySQL stack using **Docker Compose**, enabling consistent setup and one-command deployment.

Subscription Management & Billing Platform

Tech & Tools: Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, REST APIs, Maven

- Built a layered Spring Boot backend with **5 core modules** and **15+ REST APIs** for users, plans, subscriptions, invoices, and payments.
- Designed JPA/Hibernate workflows with **7+ entities**, DTOs, validation, centralized exception handling, and transactional business logic.
- Implemented subscription lifecycle and billing workflows with **4 states**, automated expiry checks, invoice generation, and duplicate-payment prevention.

Internships

VGM Soft Tech

Web Development Intern

Jun 2025 – Jul 2026

Tamil Nadu, India

- Developed responsive interfaces using **React.js** and **Tailwind CSS**, applying reusable component patterns for interactive web experiences.
- Engineered Cookify's rule-based recommendation engine, mapping leftover ingredients across **10 categories** and **25+ dishes**, with state-driven filtering to dynamically narrow choices.
- Architected a scalable **3-page recipe workflow** using reusable components and separated recipe metadata, ingredients, instructions, and imagery for easier maintenance.

Achievements

- Client Project:** Designed and deployed a professional portfolio website for a graphic designer with **2+ years of experience**, successfully delivering a first end-to-end client project.
- IEEE Publication:** Published "AI-Driven Breed Classification and Smart Trading Platform for Cattle and Buffaloes" at **IEEE ICOEI 2026**; developed LivestockIQ with a CNN model achieving **92.4% classification accuracy**.
- Problem Solving:** Solved **500+ coding problems** across LeetCode, GeeksforGeeks, CodeChef, and Skillrack, strengthening DSA and competitive programming skills.

Education

PSNA College of Engineering and Technology

Bachelor of Engineering in Computer Science and Engineering

Nov 2022 – May 2026

CGPA: 8.67/10
